

# Apply for Digital Education Quality Label!

Estonia has become a global leader in education. As a well-known digital nation, it effectively uses technology in teaching. Since 2008, the country has recognized excellence in online and blended learning with the Digital Education Quality Label, issued by the Estonian Quality Agency for Education (HAKA).

Now, this is available to educators worldwide.

## You can apply for two categories

### Digital Education Quality Label

- Recognizes high-quality online and blended courses
- Reassures students of quality content and support
- Facilitates sharing of digital teaching best practices

Digital Education Quality Label will be awarded by the Estonian Quality Agency for Education (HAKA) in co-operation with the local partner.

### Excellence in Digital Education

- Indicates excellence in applying digital technologies in teaching and learning

## Why apply?

- Get recognized for your high-quality digital courses
- Receive valuable feedback and ideas for improvement from experts
- Stand out as an innovative provider in higher education

# How to apply?

1.

## Agreement on quality criteria

HAKA and its partner organisation define digital education quality standards and the Quality Label award process.

2.

## Training

Both applicants and evaluators receive training to understand the criteria and evaluation process.

3.

## Mentorship

Experienced mentors will support the evaluators during the assessment process.

## Recognition

- Courses that meet quality standards get the Digital Education Quality Label.
- Those with exceptional technological or pedagogical methods are awarded the Excellence in Digital Education.

4.

# What applicants say?

“ The systematic self-analysis instrument helped to make a thorough revision of the course and showed the elements that needed improvement. ”

“ The whole process made it possible to perceive one's activities (both in relation to the specific subject and to teaching in general) from a different perspective. ”
